

Bobby

Bobby aged 11 plays the drums, likes eating out and going to the cinema. He loves taking things apart and putting them back together and thinks he might like to be a mechanic when he's older

A funny, happy and highly entertaining young boy who makes people laugh easily and is very intelligent with his sense of humour and enjoys laughing and joking with adults too.

Only now is he pursuing activities that he wants to do and he is eager to try new things and is thriving because he has been given the opportunity to grow in confidence and have a positive outlook. Bobby does like to make up, invent and fabricate

stories and when challenged on this it is normally to do with gaining peoples attention, the need to be liked and wanting people to like him.

Bobby struggles with children his own age so would benefit from a family where there is a younger or older child or no other children and for Bobby to thrive we are looking for a family who can look after him and facilitate him to see his maternal grandparents until he is an adult.

Interested in fostering Bobby please contact **01952 387387** or find more profiles of children needing foster care at **www.telfordfostering.co.uk/longterm**
