

Harvey

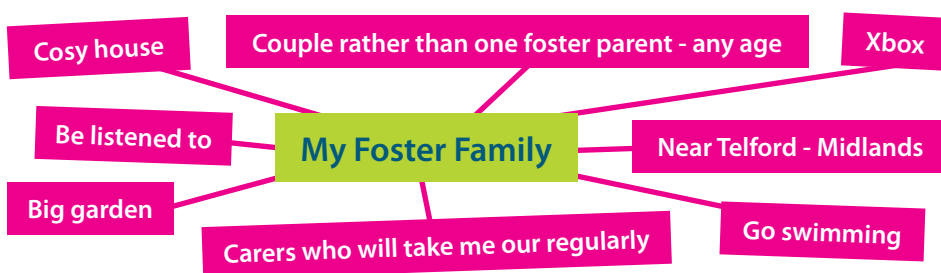

Harvey aged 11, likes Lego, building things and exploring the outdoors especially climbing trees. He loves to learn about space and the world around him. He likes to go on holiday especially if it is in a tent or caravan and seeing new places.

Harvey is very friendly and helpful but can get anxious in difficult situations and is competitive and can get upset if he does not win at things.

From a large family, being a twin is a big part of his identity and something he is proud of. His twin brother has already found his forever family.

Harvey is looking for an active foster family who have a large garden in which he can play. He would benefit from one to one time, clear boundaries and consistency of care.

Can your family offer this and help to manage and regulate Harvey's behaviour in a positive way.
