

Daisy

Daisy aged 11 loves horse riding, playing netball and reading – especially Harry Potter! She is a friendly, polite young girl who is generally kind and caring.

Daisy is doing well at school and is looking forward to going to secondary school in September.

Although she enjoys being sociable she can lack confidence in new situations. She has experienced a lot of feelings of rejection throughout her life and needs plenty of encouragement, support and reassurance.

We would like Daisy to be placed with long term carers who are willing and committed to spending lots of time with her and to offer her substantial emotional support. The family will need to be patient and resilient and be able to put very clear, consistent boundaries in place and support Daisy with these.

Daisy can be placed with other children but there is likely to be some mediation needed at times by the grown-ups.

If you think you can offer a long term home to Daisy and support her - please get in touch on 01952 387387
