

Elliot

Elliot aged 11 likes playing football, tennis and other sporting activities. He enjoys spending time on his tablet and playing board games, although he does like to win!

Elliot is an energetic young boy with a cheeky personality and a great sense of humour. He enjoys going out for meals and has wonderful table manners.

Elliot has a diagnosis of Autism and moderate Development Delay. Elliot can dress himself but it helps if clothes are placed in order for him.

He now attends a specialist educational provision but has struggled to make the transition from

his primary school, which was very familiar and nurturing. His anxiety can manifest itself in challenging and aggressive behaviour, which can lead to him being restrained.

We would like Elliot to be placed with long term carers with the skills and experience to support him. Carers would need to be able to offer him a great deal of love, nurturing and clear routines and boundaries.

If you think you can offer a long term home to Elliot and support him - please get in touch on 01952 387387
