

Jonah

Jonah aged 10 loves Peppa Pig and Paw Patrol and anything to do with pigs – he loves to go to on visits to farms where he can see and touch pigs.

He loves being outdoors, at the park or at the seaside. He also takes lots of photos of himself on his iPad and likes to look at them.

Jonah's global development delay means he struggles with communicating but uses his own version of Makaton, has some mobility issues and is incontinent. He attends the Bridge school. Jonah can be very affectionate and is eager to

please but will scream and shout if he doesn't like something or get his own way.

Jonah would benefit from being with a young, fairly active couple, possibly with older children. The family would need to be able to provide strong and consistent boundaries to manage and adapt Jonah behaviours. Ideally Jonah would have a carer who was already Makaton trained or would be willing to learn.

If you think you can offer a long term home to Jonah and support him - please get in touch on 01952 387387
